Requirements and Installation

Interface and Parameters

Many of you asked for an upgrade to the new UVI format, so by purchasing this upgrade, you will be able to upgrade any of your library to the new UVI format. For Most of our libraries, we introduced some new features when moving to this new format. This also means that you will need an iLok key to run the new version of the library.

Just remember to tell us in the comments at checkout which product you wish to upgrade.

Don't forget that you need to order as many upgrades as the number of products that you wish to upgrade. Simply specify us in the comment box what product you want to upgrade.

Once your purchase is made, please contact us (via the contact form or the submit a ticket), this should speed up the process. We will process them manually so please be patient.
